## Professional Experience

Mochimedia | San Francisco, CA  
UI Engineer  
August 2011 – April 2014

- Translated Illustrator mock-ups to pixel perfect, and semantically sound web pages inline with W3C best practices.
- Crafted modular JavaScript widgets for popups, RSS feeds, thumbnail galleries, and menu interactions using jQuery, Backbone, and other JS frameworks.
- Mocked, prototyped, and developed client side tools for game developer analytics, advertiser sales tracking, and publisher site statistics.
- Created wireframes and developed user experience for a flash games catalog with a library of over 70,000 entries.
- Hand coded custom Wordpress theme, including implementing a handcrafted Twitter widget using Twitter OAuth.
- Created responsive mobile web page utilizing Bootstrap framework and Swipe.js.
